This course will examine the English Gothic novel. Gothic novels emphasize the horrible, the supernatural, the sublime, and the fantastic, finding their inspiration in the mystery of the unknown. Horace Walpole's The Castle of Otranto in 1764 introduces many of the elements that will characterize the Gothic for two centuries: a castle, suspense, ghosts, a persecuted innocent, and a highly symbolic environment. We will begin with Walpole and wend our way through the eighteenth- and nineteenth-century Gothic tradition and discuss how the Gothic transforms, adapting its political and social critique and incorporating developing understandings of human psychology.
