

# SCHOOL OF EDUCATION AND HUMAN SERVICES

Nancy Wallace, PhD., Dean; Lorrei DiCamillo, Ed.D., Undergraduate Associate Dean; Julie Marzolf, Executive Associate; Virginia Carver, Administrative and Data Assistant

Bagen Hall 201 | 2001 Main Street | Buffalo NY 14208 | 716 888-3294 | Fax: 716 888-3164

## Mission Statement

The faculty of the School of Education and Human Services (SEHS), in concert with our candidates, school/community partners, alumni, and the community, seek to prepare highly effective, socially committed professionals who value the Jesuit traditions demonstrated through their own *cura personalis*, work towards social justice, and leadership through service. The mission of the unit is to prepare professionals who possess content, pedagogical, and professional **knowledge**; use their gifts in the **service** of others; and demonstrate **professionalism** and **leadership** in their field.

## Academic Programs

The School of Education and Human Services offers curricula leading to undergraduate degrees in a number of areas within the departments of Teacher Education and Kinesiology.

### Kinesiology

The Department of Kinesiology offers undergraduate majors in health and wellness and sports and exercise health care. A Professional and Technical Studies undergraduate degree is also offered through the department.

### Teacher Education

The Teacher Education and Leadership Department offers undergraduate certification programs at the childhood level for grades 1-6, the adolescence level in a content area for grades 7-12, and dual physical education/health education for all grades pre-k-12. Dual certification for childhood includes either students with disabilities or teaching English to speakers of other languages for all grade levels. Childhood candidates may elect to take two additional courses in early childhood to extend their certification to birth to grade 2, or take two additional courses in middle childhood to extend to grades 7 and 8. Adolescence candidates may elect to take two additional courses in middle childhood to extend their certification to grades 5 and 6.

For those who want to become high school teachers, programs lead to certification in one of six academic disciplines: biology, chemistry, English, mathematics, social studies, and Spanish. A 4+1 option is available for those students who have an undergraduate major in a content area (biology, chemistry, English, history or math) and complete the requirements for an MSED in students with disabilities to earn initial certification in both areas by the end of the fifth year of study.

### Graduate Programs

The School of Education and Human Services offers a variety of master's degrees and advanced certificates in the departments of Counseling and Human Services (clinical mental health and school counseling), Teacher Education and Leadership (adolescence education, childhood education (1-6)/special education (K-12), childhood education (1-6)/TESOL (K-12), special education-advanced, physical education, educational administration

and leadership, instructional technologies and curriculum design, higher education and student affairs administration, literacy, and TESOL), Kinesiology (exercise science), and Physician Assistant (physician assistant studies). These programs are described in the Graduate Catalog.

## UNDERGRADUATE MAJORS & DEPARTMENTS

Majors	Department
Adolescence Education	Teacher Education
Childhood/TESOL	Teacher Education
Health and Wellness	Kinesiology
Physical Education	Teacher Education
Physical Education/Health Education	Teacher Education
Professional and Technical Studies	Kinesiology
Sport Pedagogy	Teacher Education
Sports and Exercise Health Care	Kinesiology
Special Education/Childhood	Teacher Education

## UNDERGRADUATE MINORS & DEPARTMENTS

Minors	Department
Coaching	Teacher Education
Education	Teacher Education
Strength and Conditioning	Kinesiology

## 4+1 PROGRAMS (<http://catalog.canisius.edu/graduate/school-education-human-services/educator-preparation/dual-degree-content-and-msed-swd/#curriculumtext>)

- BA/BS programs in English, Mathematics, Biology, Chemistry, and History combined with a MSED in Teaching Students with Disabilities Adolescent Generalist 7-12 to provide both general and special education certifications in a 4+1 bachelor's and master's degree program.

## SEHS Learning Goals

SEHS students will embody the characteristics of a Canisius College graduate. Our candidates will meet the university, state, and national standards and demonstrate proficiencies articulated by their discipline.

- Learning Goal 1: Candidates will demonstrate content knowledge, pedagogical, and professional knowledge necessary for successful performance in their field.
- Learning Goal 2: Candidates will demonstrate professional skills and dispositions necessary for successful performance in their field.
- Learning Goal 3: Candidates will demonstrate willingness to use their skills to benefit and serve society. Within the contexts of their work, candidates promote authentic learning, social and emotional development, and a commitment to social justice in environments that foster respect for diversity and the dignity of all.
- Learning Goal 4: Candidates will demonstrate self-reflection as a habit of mind, continuously assessing and refining their professional practice as they construct a rich repertoire of research-based knowledge, skills,

and attitudes for effective performance ensuring that all students and/or clients have optimal opportunities to learn and grow.

- Learning Goal 5: Candidates will become adept at applying their acquired knowledge in the process of evaluating their own professional performance and decision-making with respect to its impact on students and/or clients, organizations, and the wider community.

## 4+1 PROGRAMS (<http://catalog.canisius.edu/graduate/school-education-human-services/educator-preparation/dual-degree-content-and-msed-swd/#curriculumtext>)

BA/BS programs in English, Mathematics, Biology, Chemistry, and History combined with a MSEd in Teaching Students with Disabilities Adolescent Generalist 7-12 to provide both general and special education certifications in a 4+1 bachelor's and master's degree program.

## CURRICULUM

The 4+1 programs offer a BA/BS in the content area as well as a MSEd in Special Education. This 4+1 program also leads to Initial Adolescence certification in the content area as well as Initial certification in Students with Disabilities (All Grades: PreK-Grade 12). Since the program leads to two teaching certificates, candidates must meet the content requirements for both certificates over the course of the five years. In some instances, New York State has additional requirements for certification; for example, all candidates certified to teach Students with Disabilities need two math courses, two English courses, two social studies courses, and two science courses. These are identified as appropriate.

## UNDERGRADUATE REQUIREMENTS

### An Ignatian Foundation

All undergraduate students must complete either the Canisius Core Curriculum (<http://catalog.canisius.edu/undergraduate/academics/curricular-information/core-curriculum/>) or the All-College Honors Curriculum (<http://catalog.canisius.edu/undergraduate/academics/curricular-information/all-college-honors-program/>). Many schools refer to their college-wide undergraduate requirements as "general education" requirements. We believe that the core curriculum and the honors curriculum are more than a series of required classes; they provide the basis for a Jesuit education both with content and with required knowledge and skills attributes that are central to our mission.

## CONTENT AREAS

- BIOLOGY
- CHEMISTRY
- ENGLISH
- MATHEMATICS
- SOCIAL STUDIES (HISTORY)

## Accreditation

Full accreditation of all educator preparation programs in the School of Education and Human Services was obtained through the Council for the Accreditation of Educator Preparation (CAEP) in 2017.

Full accreditation of all educator preparation programs in the School of Education and Human Services was obtained through the Council for the Accreditation of Educator Preparation (CAEP) in 2017.

Canisius University is a member in good standing of the Association for Advancing Quality in Educator Preparation (AAQEP) (<https://aaqep.org/>), a national accrediting organization recognized by the Council for Higher Education Accreditation. The educator preparation programs at Canisius University have been awarded full accreditation by AAQEP through December 31, 2031. Accreditation acknowledges that a program prepares effective educators who continue to grow as professionals and has demonstrated the commitment and capacity to maintain quality.

AAQEP Accredited Programs at Canisius University (<https://www.canisius.edu/academics/our-schools/school-education-human-services/accreditation-outcomes/>)

Specific accredited programs include the Counseling and Human Services by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and the Physician Assistant program by the Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA).

All programs are registered and approved by the New York State Education Department.
