MANAGEMENT

Chair: Lynn A. Fish, PhD

Introduction

Every organization includes individuals whose job it is to coordinate and integrate the activities of employees, manage operations and lead the organization successfully into the future. These individuals are managers.

Management is the art and science of getting things done through people. Good management is necessary for the success of any company or organization. It focuses on accomplishing organizational objectives through the coordination of people and other resources, and involves such activities as planning, organizing, leading, controlling, motivating and general problem solving and decision making. Managers today face the task of leading their companies as they compete in a global marketplace by designing and managing processes that create goods and/or services and add value for customers. They do this in multiple ways. Effective managers empower the workforce to face the challenges of complex and changing environments. They also manage an organization’s operational and technological systems to satisfy customers. Such processes are critical in all firms from the smallest entrepreneurial company to the largest multinational corporation. Increasingly, managers and employees also focus on the impact organizational policies and practices on people and the planet.

The management major at Canisius prepares students to perform a variety of roles in business and not-for-profit organizations. The management major and management courses are designed to give students insight into human behavior, to develop students’ understanding of organizational issues and processes, and to teach students how to analyze information, make decisions and implement solutions.

The Management Department

The Management Department offers majors in Management, Entrepreneurship and International Business and a variety of academic electives. With 11 full-time faculty, the department is one of the largest in the Richard J. Wehle School of Business. The department also offers a wide variety of co-curricular programs including student chapters of professional organizations, internships and research opportunities. For a more detailed description of the program, faculty, facilities, academic and co-curricular opportunities please go to the Management Program webpage (https://www.canisius.edu/academics/programs/management).

Management Major

The Management major provides students with a balanced education to prepare them for a variety of important organizational roles. The curriculum includes basic coursework in quantitative analytical methods, operations management, behavioral science and human resource management and strategic management.

Students may take additional specialized courses and electives to add depth in one of four management minors: Global Logistics and Supply Chain Management, Human Resource Management, International Management, or Operations Management. Alternatively, they can work with an adviser in the department to choose their electives to fit their individual interests or needs.

Qualifications

Students must maintain a 2.0 GPA in their major and a 2.0 overall GPA to graduate with a degree in management. All students must complete a minimum of 120 credit hours to graduate. Students must also maintain a 2.0 grade point average in courses credited toward completion of any minor administered by the Department of Management.

Advisement

All students should have an advisor in the major and should contact the department directly to have an advisor assigned if they do not already have one. Major advisors are normally assigned in the sophomore year, but may be requested in the freshman year to supplement a student’s freshman advisor (their GRIF 101 facilitator). Meetings with academic advisors are required prior to students receiving their PIN for course registration each semester. All majors should work closely with their advisor in discussing career expectations, choosing their major electives, developing their entire academic program and planning their co-curricular or supplemental academic experiences.

Dual Majors

Students who wish to expand their educational opportunities may decide to declare a dual major. The decision may be based on career goals or planned graduate studies. Before a student declares a dual major, it is important to meet with the appropriate academic departments for advisement. Some dual major combinations can be completed within the minimum 120 credit hour degree requirement, but in some cases additional course work may be required. In order to declare a dual major, the student must complete the appropriate dual major request form and get the signature of each department chairperson and the appropriate associate dean.

Management majors are encouraged to consider earning dual majors with degree programs in International Business (http://catalog.canisius.edu/undergraduate/wehle-school-business/international-business-programs), Entrepreneurship (http://catalog.canisius.edu/undergraduate/wehle-school-business/entrepreneurship), or Marketing (http://catalog.canisius.edu/undergraduate/wehle-school-business/marketing) based on their career goals and aspirations. Students interested in earning a dual major should speak with a departmental advisor early in the college program.

MAJOR EXPERIENCES

The management major is designed to give students a breadth of knowledge in a variety of business functions as well as a depth of understanding in operations management and organizational behavior and human resource management. Management electives can be used by students to pursue specific topics based on their interests or career aspirations.

Management majors are strongly encouraged to become actively involved in one of the Canisius College student chapters of professional organizations that are associated with the major: APICS — the Operations Management Society and SHRM — the Society for Human Resource Management. Students pursuing Management minors are expected to be involved in the student organization associated with their minor. The student organizations provide excellent opportunities for leadership development and professional networking through such activities as touring local organizations, attending professional meetings and seminars, and hosting local professionals at campus meetings.
Participation in such organizations is an important part of preparation for a career.

Management majors are also strongly encouraged to complete internships (either for credit or not for credit).

Minors
Minors provide students the opportunity to pursue additional interests but generally do not require as many courses as a major. Minors generally range from five to eight required courses. The minors page (http://catalog.canisius.edu/undergraduate/minors) provides a complete list of minors and provides links to each minor. Some majors and minors can be completed within the minimum 120 credit hour degree requirement, but in some cases additional coursework may be required. Students must complete the appropriate minor request form.

The Management department offers a number of minor degree programs that are intended to provide attractive supplements to the Management major. Although these minor degrees were designed with Management majors in mind, they are available to any student that has taken the appropriate prerequisite courses. A list of these minors can be found earlier on this page and by clicking the Minors tab above.

**ADDITIONAL INFORMATION**

**Internships**
Internships qualifying for three hours of academic credits are available to upper-division students majoring in management. These opportunities involve a work-and-study arrangement with both workplace and faculty supervision. Many are paid. Students completing internships for credit must meet certain departmental requirements. For further information, contact the department chair or your departmental advisor. Non-credit internships are also available and can be a very important part of a student’s development and career preparation.

**Career Preparation**
All management majors are expected to begin planning for their business careers as early as the freshman year. This planning process typically involves taking advantage of the career services offered by the Griff Center for Academic Engagement located in Old Main 016. These services include assessment tools for identifying attractive careers, resources for researching and exploring different careers, instruction in how to utilize various online tools for conducting a job search, preparation of resumes, interview skills training and other professional development services. The Griff Center staff offers a variety of workshops and seminars as well as providing one-on-one counseling and training to assist students preparing for the world of work. Finally, the Griff Center is the primary point of contact for employers seeking to hire students for internships and full-time jobs. Therefore, it is in students’ best interest to work closely with the Griff Center throughout their college years to prepare for their future career.

**General Education Requirements**
All undergraduate students must complete either the Canisius Core Curriculum (http://catalog.canisius.edu/undergraduate/academics/curricular-information/core-curriculum) or the All-College Honors Curriculum (http://catalog.canisius.edu/undergraduate/academics/curricular-information/all-college-honors-program).

**Free Electives**
Free electives are courses in addition to the Core Curriculum or Honors Curriculum and major requirements sufficient to reach the minimum of 120 credit hours required for graduation. Students may graduate with more but not less than 120 credit hours.

**Major Requirements**

**Business Core**
Required courses for all business majors (http://catalog.canisius.edu/undergraduate/wehle-school-business/business-core)

**Additional Major Requirements**
MGT 335  Management Science 3
MGT 336  Production/Operations Management 3
MGT 360  Organizational Behavior 3
MGT 364  Human Resources Management 3

**Elective Requirements**
Management Electives (3 Courses) 9

Total Credits 70-72

**Major Electives**
Management majors are required to take three (3) courses that are approved as Management electives. Some courses offered by other programs may be used as management electives. Please consult your academic advisor or the advisement guide that is published each semester for an up-to-date list of these courses.

**LEARNING GOALS & OBJECTIVES**

**Student Learning Goal 1**

Management Majors will be able to solve problems in operations management.

Students will:
- Objective A: Analyze the transformations of inputs into outputs through value-added process;
- Objective B: Apply management science techniques and interpret results from such applications.

**Student Learning Goal 2**

Management Majors will be knowledgeable about leadership and organizations.

Students will:
- Objective A: Understand major theories of leadership;
- Objective B: Evaluate theories of motivation in the workplace;
- Objective C: Understand principles of organizational structure and design.

**Student Learning Goal 3**

Management majors will be knowledgeable about issues of fairness and equity in the workplace.

Students will:
- Objective A: Understand concepts and practices of justice in organizations;
- Objective B: Evaluate managerial practices pertaining to employment discrimination.

**Management Minors**

Management (and other business major) students may choose one of the minors below in their junior or senior year and notify the registrar and their department advisor of this decision. Alternatively, they can consult with an advisor in the department to select management electives that meet their individual interests or needs. Students who are not business majors may pursue one of the Management minors to complement their major in another field, but will need to make sure they have taken certain introductory business courses (see note below). Minors available within the Management major are:

- International Management (http://catalog.canisius.edu/undergraduate/wehle-school-business/management/international-minor)
- Operations Management (http://catalog.canisius.edu/undergraduate/wehle-school-business/management/operations-minor)

Note: Non-business majors must take MGT 101 and ECO 255 (or its equivalent) or MAT 105 (or its equivalent) prior to beginning some of the minors.

**Management Minor (for Non-Business Majors)**

**Minor in Industrial/Organizational Psychology**

This interdisciplinary program, which is open to management majors, helps students to understand the factors that affect human behavior in the workplace. The program covers a mix of management and psychology courses. For additional information, speak with a departmental advisor and review the course requirements listed on the page below.

- Industrial/Organizational Psychology Minor (http://catalog.canisius.edu/undergraduate/college-arts-sciences/psychology/Industrial-O rganizational-minor)

**MGT 101 Introduction to Management** 3 Credits
Overview of the managerial functions and processes, including planning, organizing, leading and controlling, addressed from behavioral, economic, historical, and other perspectives.
Offered: fall & spring.

**MGT 325 Operations Analysis for Business** 3 Credits
Production/operations management and management science. Decision areas include Operations strategy, process management, quality management, facilities layout, inventory management, aggregate planning and just-in-time systems. Problem-solving techniques include forecasting, linear programming and decision analysis. This is NOT a MGT elective.
Prerequisite: MAT 106 or equivalent (or permission of the instructor).
Offered: fall & spring.

**MGT 334 Strategic Sourcing** 3 Credits
This course builds upon the operations management principles discovered in Operations Management and extends them to strategic sourcing and its role in global supply chain management. Strategies, concepts, and terminology pertinent to the study of strategic sourcing will be discussed. Topics to be discussed include: purchasing process, purchasing policy, purchasing procedures, purchasing policy and procedures, supply management integration, commodity strategy development, supplier evaluation and selection, supplier quality management, supply management development, worldwide sourcing, strategic cost management, tools and techniques, negotiation, contract management, law and ethics, trends, and performance measurement. Counts as a MGT elective.
Prerequisite: MGT 325 or MGT 336.
Offered: occasionally.
MGT 335 Management Science  3 Credits
Introduction to a variety of management science tools and applications including linear programming, forecasting, decision analysis and project management. Quantitative modeling of decision-making problems, with an emphasis on interpretation of results.
Prerequisite: ECO 255.
Offered: fall & spring.

MGT 336 Production/Operations Management  3 Credits
The objective of the course is to address how firms manage processes that create goods and/or services and add value for the customer. Decision areas include operations strategy, types of processes, product/service design, facilities layout, inventory management, aggregate planning, just-in-time systems and supply chain management.
Prerequisite: MGT 335 (or concurrent registration).
Offered: fall & spring.

MGT 350 Strategic Sustainable Development  3 Credits
Sustainable development has moved from ‘doing good’ to ‘good business’. Organizations are realizing that sustainable development can have a positive strategic impact on their performance and that a strong business case can be made for such initiatives. This course will examine current issues and trends in sustainable development and their impact on strategy. Counts as a MGT elective.
Offered: occasionally.

MGT 356 Human Resources Management  3 Credits
Focuses on a firm's human-resources management activities. Topics include contemporary approaches to strategy, staffing, training & development, performance evaluation, compensation and labor and employee relations.
Prerequisite: MGT 101 & junior standing.
Offered: spring.

MGT 360 Organizational Behavior  3 Credits
Organizational functioning at the individual, group, and system levels. Topics include social perception, communications, leadership and motivation, and organization design. Course includes experiential practice of related managerial skills.
Prerequisite: MGT 101 & sophomore standing.
Offered: fall.

MGT 363 Negotiation Theory and Practice  3 Credits
Explores formal and informal ways that managers negotiate differences. The course considers negotiation with peers, supervisors, subordinates, suppliers, customers, outside agencies and others as a key managerial process and a component of effective leadership. It takes a broad view of negotiations, examining the links between effective negotiation processes and influence, communication and relationship-management. We will examine research and concepts developed in a number of academic fields, and look closely at personal skills and experiences. The course requires intense involvement in negotiation simulation exercises, and thoughtful application of theory and research. Counts as a MGT elective.
Offered: occasionally.

MGT 367 Employee and Labor Relations  3 Credits
Understanding power relationships in the world of work. Formal relationships between management and unions representing employees. Topics include labor history, negotiating, labor-management relations including adversarial as well as labor-management collaboration and managing grievances. Some emphasis on skill development. Counts as a MGT elective.
Prerequisite: MGT 360 & junior standing.
Offered: occasionally.

MGT 370 Managerial Environment  3 Credits
Managing interplay between business and society, including political, economic, social, legal, international, and ethical environments. Role of market, law, self in control of business, cases, and issues.
Prerequisite: MGT 101 & senior standing.
Offered: fall & spring.

MGT 380 International Business Seminar  3 Credits
This course offers short-term seminars in Europe or China, either in the winter between the fall and spring semesters or in the summer. Winter trips are typically two-and-one-half weeks and summer trips are typically three weeks. The seminars give exposure to the international business environment and to business practices outside of the U.S. There are readings, discussions, and a substantial paper required. Depending on the specific seminar the costs range from approximately $4500.00 to $7500.00 in addition to normal tuition for the 3 credit hour course. Counts as a MGT Elective.
Restriction: open to upper-level business majors and to others with instructor approval.
Offered: occasionally.

MGT 383 Introduction to Ethics  3 Credits
This course offers an introduction to the study of ethics and its application to business and management. Topics include the ethical theories of utilitarianism, virtue ethics, deontology, and care ethics. The course will examine ethics from a variety of perspectives, including those of philosophers, business leaders, and business stakeholders. The course will also consider the role of ethics in decision-making, and the ethical challenges posed by globalization.

MGT 383 Business Law  3 Credits
This course offers an introduction to the study of business law and its application to business and management. Topics include contracts, torts, agency, employment law, and intellectual property law. The course will examine business law from a variety of perspectives, including those of lawyers, business leaders, and business stakeholders. The course will also consider the role of business law in decision-making, and the legal challenges posed by globalization.

MGT 410 Strategic Human Resource Management  3 Credits
This course offers an in-depth exploration of strategic human resource management, including topics such as recruitment and selection, training and development, compensation and benefits, and performance management. The course will examine strategic human resource management from a variety of perspectives, including those of human resource professionals, business leaders, and business stakeholders. The course will also consider the role of strategic human resource management in decision-making, and the challenges posed by globalization.

MGT 411 Global Human Resource Management  3 Credits
This course offers an in-depth exploration of global human resource management, including topics such as cross-cultural communication, international employment law, and global compensation and benefits. The course will examine global human resource management from a variety of perspectives, including those of human resource professionals, business leaders, and business stakeholders. The course will also consider the role of global human resource management in decision-making, and the challenges posed by globalization.

MGT 412 Labor and Employment Law  3 Credits
This course offers an in-depth exploration of labor and employment law, including topics such as collective bargaining, employment discrimination, and worker safety and health. The course will examine labor and employment law from a variety of perspectives, including those of lawyers, human resource professionals, and business leaders. The course will also consider the role of labor and employment law in decision-making, and the challenges posed by globalization.

MGT 413 Labor and Employment Policy  3 Credits
This course offers an in-depth exploration of labor and employment policy, including topics such as labor unions, human resource management, and employment discrimination. The course will examine labor and employment policy from a variety of perspectives, including those of human resource professionals, business leaders, and government officials. The course will also consider the role of labor and employment policy in decision-making, and the challenges posed by globalization.
MGT 438 Entry Strategies in Emerging Markets 3 Credits
This course examines global corporate entrepreneurship and the process through which established companies identify, launch, and manage the entry of existing products into geographic markets where the companies do not currently compete. We will also look at "emerging giants" — entrepreneurial firms in emerging markets that have grown to become multinationals. The course examines the differences between emerging markets and mature markets, as well as differences among emerging markets. The objective is to understand how these issues affect business opportunities in different emerging markets and why these efforts often fail. Counts as a MGT elective.
Prerequisite: ECO 101, ECO 102, & MGT 101.
Offered: occasionally.

MGT 439 Special Topics in Operations Planning and Control 3 Credits
Series of topics designed to target the professional certification examinations in supply chain management conducted by APICS - The Association of Operations Management. Counts as a MGT elective.
Prerequisite: MGT 336.
Offered: occasionally.

MGT 440 Global Supply Chain Management 3 Credits
This course examines procurement and outsourcing strategies, network configuration, inventory management, supply chain integration, strategic alliances, international issues, coordinated product and supply chain design, demand forecasting, ERP systems, quality and JIT issues and performance measurement in a global supply chain. Counts as a MGT elective.
Prerequisite: MGT 325 or MGT 336.
Offered: every fall.

MGT 446 Managerial Policy/Strategy 3 Credits
Business students' capstone course. Integration of all business disciplines into discussion of goals, strategies, policies, planning, and evaluation. Cases provide decision-making experience.
Restriction: must be taken in last semester of senior year.
Offered: fall & spring.

MGT 460 Ethical Power and Influence for Leaders 3 Credits
Power and influence permeate our everyday lives and are important processes within organizations. Whether it be a company you founded, one you might be working with, or a company you work for, it is vital to understand how power and influence can be used to get things done even if there are barriers in your way. Technical expertise is important, but understanding how to achieve buy-in for your initiatives and goals is vital to your success. This course is about understanding power and influence and learning to use them effectively to achieve your goals. Through self-assessments, you will come to understand your own beliefs and tendencies regarding power and influence. Using this as a starting point, conceptual models are explored to give you real-world approaches in how to use ethical power and influence to become effective leaders. Counts as a MGT elective.
Prerequisite: MGT 101 or permission of instructor.
Offered: every spring beginning spring 2018.

MGT 472 Comparative Management Systems 3 Credits
International business emphasizing differences in systems. Context and traditions in different countries and regions: social, political, governmental, business, labor, ethical, cultural analysis. Different management and business practices. Managing and doing business within and across many countries. Counts as a MGT elective.
Prerequisite: MGT 101 or permission of instructor.
Offered: spring.

MGT 475 Doing Business in Latin America 3 Credits
This course is designed to provide an introduction into the Latin American business environment and its impact on management practices. Latin America is a region of resource-rich, with rapidly developing economies with enormous potential for business. Some Latin American countries have experienced, and still are undergoing, drastic political and economic transformation. This course will help students understand the opportunities and business potential as well as risks and barriers of doing business in Latin American countries. This course uses cases that focus on managerial aspects relevant to investment, risk management, and Latin America cultural issues.
Offered: occasionally.

MGT 492 Internship in Global Supply Chain Management 3 Credits
All for-credit internships require non-routine job experience that links academic concepts with practical experience. Involve supervision by faculty and student demonstration of academic value through papers and reports. Enrollment subject to meeting minimum GPA requirement.
Prerequisite: student must complete a WSB Internship Application and obtain permission of a faculty supervisor, department chair, & the associate dean.
Offered: occasionally.

MGT 493 Internship in Human Resource Management 3 Credits
All for-credit internships require non-routine job experience that links academic concepts with practical experience. Involve supervision by faculty and student demonstration of academic value through papers and reports. Enrollment subject to meeting minimum GPA requirement.
Prerequisite: student must complete a WSB Internship Application and obtain approval of a faculty supervisor, department chair, & the associate dean.
Offered: fall & spring.

MGT 494 Operations Management Internship 3 Credits
Internships require an application and approval by the associate dean.
Prerequisite: student must complete a WSB Internship Application and obtain permission of a faculty supervisor, department chair, & the associate dean.

MGT 495 Management Internship 3 Credits
Internships require an application and approval by the associate dean.
Prerequisite: student must complete a WSB Internship Application and obtain the approval of a faculty supervisor, department chair, & the associate dean.
Offered: fall & spring.

MGT 496 Management Internship 3 Credits
Internships require an application and approval by the associate dean.
Prerequisite: student must complete a WSB Internship Application and obtain the approval of a faculty supervisor, department chair, & the associate dean.
Offered: fall & spring.

MGT 499 Management Independent Study 6 Credits
Counts as an MGT elective. Independent studies require an application and approval by the associate dean.
Prerequisite: student must complete a WSB Independent Study Application Form and obtain the approval of a faculty supervisor, department chair, & the associate dean.
Offered: fall & spring.
