MS IN FINANCE (MS)

Program Director: Jeffrey Oxman, Ph.D. (oxman@canisius.edu)

The Master of Science in Finance program at Canisius College is offered full- or part-time in a non-cohort model allowing students to enter the program three times per year. It is a 30 credit hour program which may be completed in as little as 12 months. The program combines a solid theoretical grounding in the fundamentals of finance with applied quantitative and qualitative training to prepare graduates for careers in finance.

The undergraduate finance program at Canisius College is widely respected and was recognized as one of the top undergraduate business programs in the nation. Graduates of this program go on to work in equity research, banking, risk management, and other diverse finance functions locally, nationally, and beyond. The MS in Finance program was created to offer this top-ranking curriculum to students with an undergraduate degree in a quantitative discipline who have discovered an interest in the exciting and fast-paced world of banking and finance. Students will work closely with faculty in the program, including the academic director, to ensure effective progress through the program. Applied projects will help the students hone their quantitative skills and improve their oral and written communication abilities as deliverables will mimic the expectations of a professional work environment. It is the goal of the program to place as many graduates of possible on a strong career path in financial services.

The MS in Finance offers four track options, depending on students’ backgrounds and career interests. Investment Research is for students who want to combine quantitative and qualitative analysis to conduct analysis of various investments at the institutional level. The Risk Management option is for students with a more quantitative mindset that are interested in the growing field of measuring and managing risk to protect banks and other financial institutions from disaster. Data Analytics is for students who enjoy programming and working with big data sets and who want to do so in a finance setting. The General Finance track is for students without a finance background and who want a focused graduate degree to advance their career.

Admission

The Admissions Committee, in its decisions, takes into consideration the undergraduate QPA (and any graduate QPA) and the scores on the Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE). The average Cumulative GPA of an accepted student is a 3.0 and a 500 on the GMAT. Applicants should plan to take the GMAT/GRE at the earliest opportunity. Information is available online about the GMAT (http://www.mba.com/), and the GRE (http://www.ets.org/gre/). Applicants with 4+ years of professional work experience or a degree in business/science or a STEM program with a QPA > 3.2 are evaluated for a waiver of the GMAT. Applicants must submit a resume.

In rare cases, applicants requiring the GMAT or GRE can be accepted in provisional status for one semester. Provisional status allows for a student to take one semester of coursework before the GMAT or GRE must be on file.

Each applicant must submit: (1) a completed application form, (2) an official transcript of all college work, (3) other information as requested by the Admissions Committee, (4) Resume. In addition, the applicant must arrange for an official score on the GMAT or GRE to be submitted by the Graduate Management Admission Council or by Educational Testing Service.

Admission Requirements

Applicants are required to have completed the following preparatory courses or prerequisites. Students lacking the preparatory courses in economics, statistics, and accounting can complete those courses at Canisius in the MBA Program.

- Math/Calculus (e.g. MAT 111 or MAT 115)
- Economics (macro/micro) (e.g. ECO 101/ ECO 102 or ECO 606)
- Financial Accounting (e.g. ACC 201/ACC 202 or ACC 505)
- Statistics (e.g. ECO 255/ECO 256, MAT 351/MAT 352 or ECO 503)
- Information Systems or Excel proficiency (e.g. ISB 101 or MS Excel certification)

Academic Standing

Students must have CGPA of 2.8 to graduate.

A student is placed on academic probation if:

1. After completion of six hours of course work, the student’s cumulative grade point average is 2.0 or lower,
2. Any time after completion of nine or more hours of course work, the cumulative grade point average is below a 3.0 or lower

A student may be dismissed from the program if:

1. After completion of six hours of course work, subsequent to being placed on academic probation, the cumulative grade point average is less than 2.0,
2. After completion of at least 18 hours of course work, the cumulative grade point average is less than 3.0. A student may be dismissed without having been placed on probation first.

Preparatory Courses

1. Leadership & Professional Development Courses
2. Required Finance Core
3. Electives

Select 6 elective courses below
Students are required to complete the Leadership & Professional Development Program. Upon completion of the courses students will receive a LPD certificate and electronic badge.
- BUS 601 must be taken first semester
- BUS 602 must be taken second semester
- BUS 603 must be taken in third semester

Students with equivalent undergraduate content will be waived out of the preparatory courses.

Students are encouraged to select their elective courses from one of the four options listed below.

### Finance Core

Students who can demonstrate waiver of one or more Finance Core courses (FIN 608, FIN 620, FIN 622 or ECO 621, and FIN 617) will substitute additional courses in the General Finance Track or even to add a second concentration if possible in order to reach the minimum program requirement of 30 credit hours.

### General Finance Track (18 credits)

</tr>
</tbody>
</table>

Select 3 of the following electives:

- DAT 501 Statistics and Econometrics
- DAT 512 Statistical Approaches to Big Data
- MAT 500 Topics in Applied Mathematics
- Supervised Applied Integrative Project

Total Credits 18-19

¹ A minimum of three programming courses required depending on prior preparation. For students with no prior programming background, CSC 511 and CSC 512 are required toward the minimum of three programming courses and will count toward the 18-credit concentration minimum. Students who demonstrate prior programming credit for one or more of these courses will substitute additional courses to meet the 18-credit concentration minimum.

### Learning Goals & Objectives

#### Student Learning Goal 1

Graduates of the MS Finance Program will demonstrate an understanding of theory and practice of corporate finance, investments, and financial institutions and markets.

#### Student Learning Goal 2

Graduates will identify principled, ethical financial decisions and understand their duties as described in the Code of Ethics and Professional Conduct.

#### Student Learning Goal 3

Graduates will be able to assess their leadership capacities and professionally present their value propositions in a range of situations; and apply skills in the three competency areas of engaging communications, empowering teams, and inspiring innovation.

### Courses

- Accounting (ACC) Course (p. 3)
- Leadership & Professional Development Business (BUS) Courses (p. 3)
- Economics (ECO) Courses (p. 3)
- Finance (FIN) Courses (p. 3)
Accounting (ACC) Courses

ACC 505 Financial Accounting 3 Credits
Reporting the financial results of operations and financial position to investors, creditors, and managers; examination of problems that arise in the preparation, analysis and use of accounting data, with emphasis on the use of financial reports.
Offered: every fall & spring.

Economics (ECO) Courses

ECO 606 Managerial Economics 3 Credits
This course is designed to acquaint students with market forces that affect the decision making process of managers. It provides the analytic framework to understand consumer behavior, production technology, and input costs. Students will also learn how markets and the global environment influence managers, set prices and respond to the strategies of their competitors for long term firm sustainability.
Offered: every fall, spring, & summer.

Leadership & Professional Development Business (BUS) Courses

BUS 601 My Personal Brand 0.5 Credits
This course is about you and your leadership journey and career goals. Specifically this course is designed to help you discover more about yourself, your leadership skills, and what competencies are most critical to achieving your professional career goals. Central to the theme of the LPD program is your personal leadership plan, which will be developed in this course and submitted by the end of the semester. The activities in the course will also give you hands-on experience with goal setting, a critical skill to developing and empowering others. Finally, you will have the benefit of working with a Canisius alumnus who has been specially trained in coaching, mentoring, and helping to develop your leadership plan.
Offered: every fall & spring.

BUS 602 My Personal Leadership Plan 0.5 Credits
Students will identify their value proposition and how to best present their talents across multiple mediums and channels.
Prerequisite: BUS 601.
Offered: every fall, spring, & summer.

BUS 606 1-3 Credits
Student works in an organization to gain work experience. As the internship is for academic credit, a student will have to secure a faculty supervisor and will have to complete academic assignments. Approval of an internship requires the completion of an application located in the student’s portal.
Offered: every fall, spring, & summer.

BUS 699 Graduate Business Independent Study 3 Credits
Students are working on a special project related to content of their graduate business degree. The special project can be for a faculty member, administrator, or employer.
Offered: occasionally.

Finance (FIN) Courses

FIN 616 Fixed Income Securities 3 Credits
This course introduces the student to the construction, management, and underlying portfolio construction and evaluation. Implications of market efficiency on portfolio management.
Prerequisite: MBA 620 or FIN 620.
Offered: every fall.

FIN 623 Fixed Income Securities 3 Credits
This course discusses the various types of fixed income securities and the markets in which they are traded. Emphasis is placed on contact evaluation, extracting term/risk structure information from pricing, evaluating, investment opportunities and interest rate risk management.
Prerequisite: MBA 620 or FIN 620.
Offered: every fall.

FIN 621 Money, Banking and the Economy 3 Credits
The connection between financial markets, the economy, and the Federal Reserve will be explored. This course will examine the nature of financial markets, the determination of interest rates, banking, money and monetary policy. Emphasis will be placed on the impact of monetary policy on the macro economy.
Prerequisite: MBA 504 or ECO 504.
Offered: every fall.

FIN 617 Portfolio Analysis 3 Credits
An introduction to modern portfolio theory and management. Strategies underlying portfolio construction and evaluation. Implications of market efficiency on portfolio management.
Prerequisite: ACC 505 and ECO 503.
Offered: every fall, spring & summer.

FIN 619 Financial Modeling 3 Credits
Programming in EXCEL via construction of custom functions and macros using Visual Basic. These techniques are applied to a variety of financial models.
Prerequisite: MBA 508 or FIN 508.
Offered: every fall.

FIN 620 Investment Management 3 Credits
This course introduces the student to the construction, management, and performance evaluation of investment portfolios. Primary topics include portfolio models, equilibrium in financial markets, market efficiency and the application of these concepts to the investment industry.
Prerequisite: MBA 508 or FIN 508.
Offered: every fall, spring, & summer.

FIN 622 Financial Institutions and Markets 3 Credits
This course examines the changing world of financial services and the role that financial intermediaries and financial markets are playing in a rapidly consolidating industry with new benchmarks and success factors. Universal banking as the new model will be analyzed. Emphasis will be placed on contemporary issues as well as a review of the history of this evolving industry.
Prerequisite: MBA 504 or ECO 504.
Offered: every fall, spring & summer.

FIN 610 Corporate Finance 3 Credits
This course provides the basic tools of Financial Management. It introduces you to the goal of Financial Management, analysis of financial statements, the concepts of cash flow, financial planning, time value of money, capital budgeting, the principles of valuation, the concepts of return and risk, the use of financial leverage, the cost of capital, dividend policy and working capital management.
Prerequisite: ACC 505 and ECO 503.
Offered: every fall, spring & summer.

MBA 620 or FIN 620.
Offered: every fall.

MBA 508 or FIN 508.
Offered: every fall.

MBA 508 or FIN 508.
Offered: every fall.

MBA 508 or FIN 508.
Offered: every fall, spring & summer.

MBA 620 or FIN 620.
Offered: every fall.
FIN 624 Golden Griffin Fund I  
This course is the first of a two semester program in which students become equity analysts and portfolio managers responsible for ‘real money’ portfolio of common equity securities (the Golden Griffin Fund or ‘GGF’). In the fall semester, students begin the process of stock selection and analysis, leading to recommendations for investment by the GGF. Students follow and discuss current events in the economy and financial markets, and monitor and produce written reports regarding current GGF portfolio positions. Students serve on committees, including: Accounting and Finance; Legal and Compliance; Marketing; Public Relations and Portfolio Management. Each committee will have certain responsibilities throughout the fall and spring semesters. Students taking MBA 624 are expected to continue into the spring semester in MBA 629. Student must apply in early spring before the upcoming fall semester Offered; fall  
Prerequisite: MBA 620 or FIN 620 concurrent with MBA 812 or FIN 812. Offered: every fall.  

FIN 625 Advanced Corporate Finance  
This course provides an in-depth treatment of corporate financial management. Topics from the introductory course (MBA 508) are developed in greater detail with emphasis on the underlying theories and more extensive applications to financial decision making. Additional topics beyond the introductory level are presented and discussed. The class relies primarily on lectures, problems and case discussions.  
Prerequisite: MBA 508. Offered: occasionally.  

FIN 626 International Finance  
International Finance (also known as 'Open-Economy Macroeconomics') is the study of the monetary and economic linkages among countries. The main goal of this course is to equip students with an understanding of the global macroeconomic environment. The following topics will be covered: purchasing power parity, interest rate parity, exchange rate determination, international capital flows. MBA 504, MBA 508  
Prerequisite: MBA 508 or FIN 508 and MBA 504 or ECO 504. Offered: Occasionally.  

FIN 628 Derivative Securities  
This course discusses forward and futures contracts, swaps and options. Markets for these securities are described and analyzed. Modern techniques for identifying over and undervalued contracts are presented. The use of derivative securities in risk management is discussed.  
Prerequisite: MBA 620 or FIN 620. Offered: occasionally.  

FIN 629 Golden Griffin Fund II  
This course is the second of a two semester program in which students become equity analysts and portfolio managers responsible for ‘real money’ portfolio of common equity securities (the Golden Griffin Fund or ‘GGF’). In the spring semester, students begin the process of original equity research, leading to recommendations for investment by the GGF. Students continue to follow and discuss current events in the economy and financial markets, and monitor and produce written reports regarding current GGF portfolio positions. Committee work started in the fall semester continues as well.  
Prerequisite: either MBA 624 or FIN 624 and either MBA 812 or FIN 812. Offered: every spring.  

FIN 650 Introduction to Financial Planning  
Survey of topics in wealth management and personal financial planning. Review development of the wealth management industry, including the evolution of the high-net-worth investor segment. Various approaches to asset management, benchmarks for evaluating portfolio performance, risk tolerance, and tax and estate planning issues will be explored.  
Prerequisite: MBA 620 or FIN 620. Offered: fall.  

FIN 657 Financial Modeling with SAS  
Building financial models for forecasting and analyzing investment and financial products using the SAS programming language. Models in the areas of corporate finance, equities, bonds, portfolio management and derivative securities will be explored.  
Offered: every fall & spring.  

FIN 658 Risk Management & Financial Institutions  
This course covers market risk including interest rate risk, credit risk, and operational risk, and how these are managed/hedged. We will model credit risk and value at risk metrics using historical simulation and scenario analysis. Relevant regulations are also covered  
Prerequisite: FIN 508, FIN 620 and either FIN 621 or FIN 622. Offered: every spring.  

FIN 674 Business Analytics Using R  
This course introduces students to the open source software language R. Students will access publicly available financial data, process and analyze the data using R code. Analysis of financial ratios, investment portfolios, options, CAPM, Monte Carlo simulation, Value at Risk modeling and market microstructure will be explored.  
Prerequisite: MBA 508 or FIN 508. Offered: Occasionally.  

FIN 691 Supervised Applied Integrative Project  
Special project or internship experience designed and supervised by a faculty member in conjunction with program professional partners. Intended primarily for the Risk Management or Data Analytics concentrations to be fully integrative with business applications. Examples may include risk management or big data projects for or within investment firms or financial institutions.  
Offered: every fall, spring, & summer.  

FIN 698 Finance Internship  
Internship experience.  
Offered: every fall, spring, & summer.  

FIN 812 Equity Analysis  
The analysis and valuation of equity securities is developed in stages using a case approach based on live publicly traded companies. Valuation models and the concept of value creation follows preliminary analysis of financial statements and market based financial information on risk and return.  
Prerequisite: MBA 620 or FIN 620. Offered: every fall.
