INFORMATION SYSTEMS (BUSINESS) - ISB

ISB 101 Management Technology 3 Credits
Introduction to information systems, hardware and software; information systems concepts in business; telecommunications; Ecommerce; enterprise systems; ethics, crime and security. Hands-on development of business applications.
Offered: every fall & spring.

ISB 305 Strategic Modeling & System Dynamics 3 Credits
Strategic modeling uses computer simulations and other modeling techniques to understand business, environmental, and public policy problems. This course provides an introduction to systems thinking and system dynamics. “Systems thinking” is a way of viewing the world, understanding relationships and gaining insights into problems and opportunities. Viewing the world from a system perspective is an imperative for tomorrow's leaders since solving complex, social problems involves an interdisciplinary approach. Modeling will be used to cover topics such as supply chains, inventory management, business growth, environmental sustainability, strategic management and various public policy issues.
Offered: occasionally.
Prerequisite: ISB 101.

ISB 340 Database Management Systems 3 Credits
Design and application of database management systems. Topics include structured query language (SQL), data structures, querying and report writing, database design and administration, data mining and security.
Prerequisite: ISB 101 or equivalent.
Offered: every fall.

ISB 350 Computer and Network Security 3 Credits
Digital (data) and voice networks; network hardware, software, security and protocols. Wired and wireless communication.
Prerequisite: ISB 101 or equivalent.
Offered: occasionally, offered fall 2016.

ISB 460 Computer Forensics 3 Credits
Introducing forensics tools to investigate computers, networks, Internet activities, Email, cell phones and other digital media devices to recover electronic evidence, even if deleted. Skills to investigate crimes involving computers or Internet.
Prerequisite: ISB 101 or equivalent.
Offered: every spring, online only.

ISB 470 Cyber Security 3 Credits
Technical, legal and policy defenses to protect databases and information systems. Topics considered include intrusion detection, malware, host- and network-based vulnerabilities and countermeasures, database security, identity theft and privacy.
Prerequisite: ISB 350.
Offered: occasionally

ISB 499 Independent Study 3 Credits
Study and work with a faculty supervisor. Project to be determined by faculty agreement. Independent studies require an application and approval by the associate dean.
Prerequisite: student must complete a WSB Independent Study Application and obtain permission of a faculty supervisor, department chair, & the associate dean.
