

# SCHOOL PSYCHOLOGY MINOR

Open to Psychology majors or non-majors with appropriate background coursework. This minor focuses on psychology's role in the field of education and provides a foundation for those interested in a career as a School Psychologist. The required practicum experience must take place in a school or mental health service setting. This minor is of particular value to students interested in education, testing or working with children.

Minors are an important part of the undergraduate curriculum. If students declare a minor by sophomore year, they can usually complete it in a timely manner. Students should work with their advisor to determine if it is possible that the minor can be completed by graduation.

To receive a minor, a student must complete at least 9 credit hours of coursework distinct from their major(s) and from other minors, and students must complete more than 50% of the coursework required for the minor at Canisius. Please note that "ancillary/supporting" courses required for a major may still count as distinct courses as long as the remaining coursework still meets the 30 credit-hours required for a major. For more information about minor policies, please see the Declaring Majors and Minors (<http://catalog.canisius.edu/undergraduate/academics/student-records/declaring-majors-minors/>) page in the catalog.

## Curriculum

Code	Title	Credits
Required Courses		
PSY 370	School Psychology <sup>1</sup>	3
