Business International Requirement

The Business International Requirement is part of the business core curriculum and is designed to help prepare students for doing business in an increasingly global economy. Note that American Sign Language and
classical or ancient languages such as Greek and Latin do not satisfy the Business International Requirement. The list of non-U.S. culture classes that satisfy the requirement is updated regularly and can be obtained from your advisor or department chair. As an alternative to modern language or non-U.S. culture classes, students can satisfy the Business International Requirement by participating in a semester-long study abroad program.
